Why Purpose-built Databases?

Training event description

Training event description
Learn about the need for using purpose-built databases and the various database offerings provided by AWS. Learners will also be presented with an activity on identifying the right AWS purpose-built database for hypothetical use cases.

- Level: Fundamental
- Duration: 60 minutes

Activities

This course includes lecture materials, visual presentation, and audience participation.

Learning objectives

During this event, you will learn to:

- Explain how to create a well-architected database
- Explain the benefits of purpose-built databases
- Analyze workload requirements
- Choose the right purpose-built database

Intended audience

This event is intended for:

- Solutions architects
- Database architects
- Developers

Recommended follow-up training and resources

We recommend that attendees of this event continue learning with this course:

- Planning and Designing Databases on AWS

What is AWS Discovery Days?

AWS Discovery Days, hosted by official AWS Training Partners, introduce cloud concepts, including generative AI, security, machine learning, migrations, and modern data strategy. Expert AWS Instructors will help you learn what's possible in the cloud and how to achieve it with AWS.
