

SCRUMstudy Agile Master Certified (SAMC™)

Program Overview

Rapid changes in technology, market demands, and expectations have paved the way for the conceptualization and implementation of Agile methods and values in many organizations. Agile relies on adaptive planning and iterative development and delivery. It focuses primarily on the value of people in getting the job done effectively. SAMC™ Certified Professionals should appreciate the concepts of Agile development and have the ability to compare and choose the Agile methodology appropriate in a given situation.

Applicants will be awarded the SCRUMstudy Agile Master Certified (SAMC™) certificate by SCRUMstudy™ after successfully passing the certification exam.
